

# REMOTE DEPOSIT CAPTURE

Quick Start Guide

## INTRODUCTION

Welcome! To begin using your new RDC solution, you will need to un-install the programs associated with your previous RDC Program. If you have not used RDC previously, please skip step 1 in this guide.

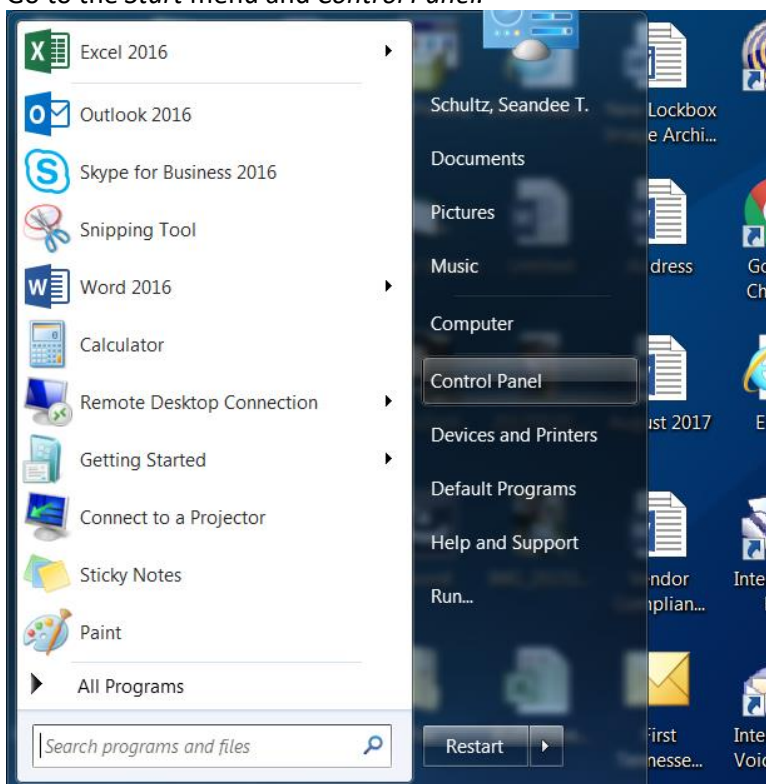

If RDC will be used with multiple banks please contact us at 888-382-4968 or [businessservicecenter@firsthorizon.com](mailto:businessservicecenter@firsthorizon.com) before proceeding. Additional steps may be needed to ensure that the application works properly in this case. **If RDC will be used with multiple banks, DO NOT follow step 1 in this guide.**

Before you start, please know:

- The check scanner needs to be unplugged during the following steps.
- To complete the next steps, administrative rights to your computer or network are required.

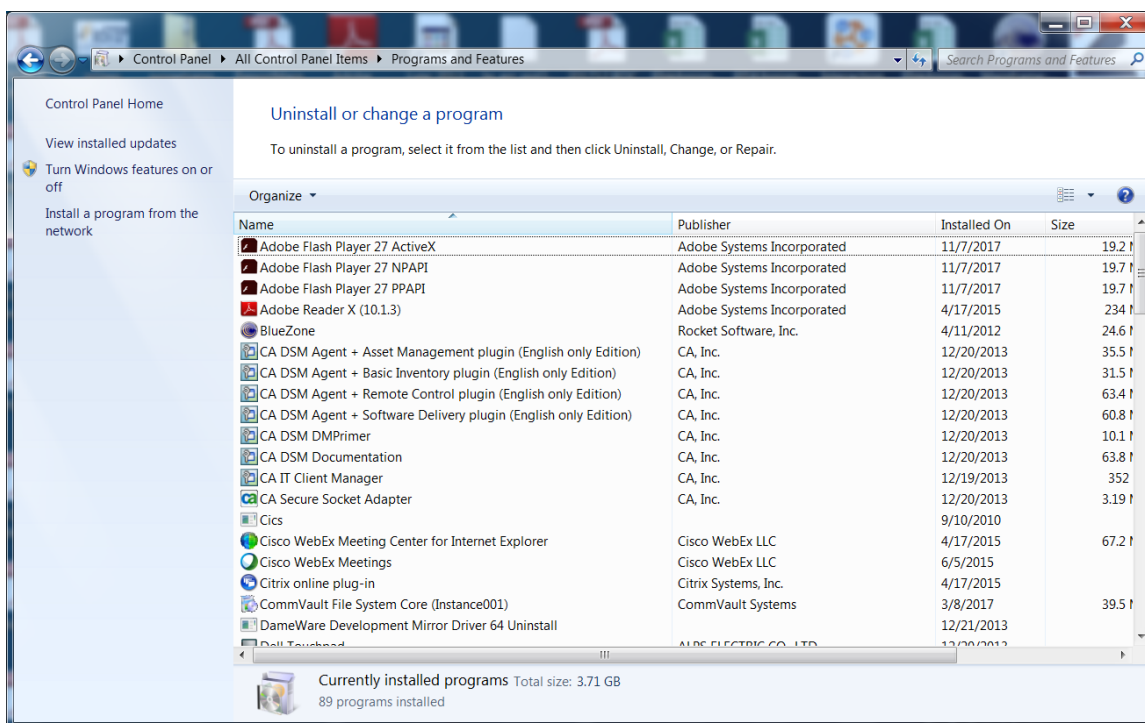

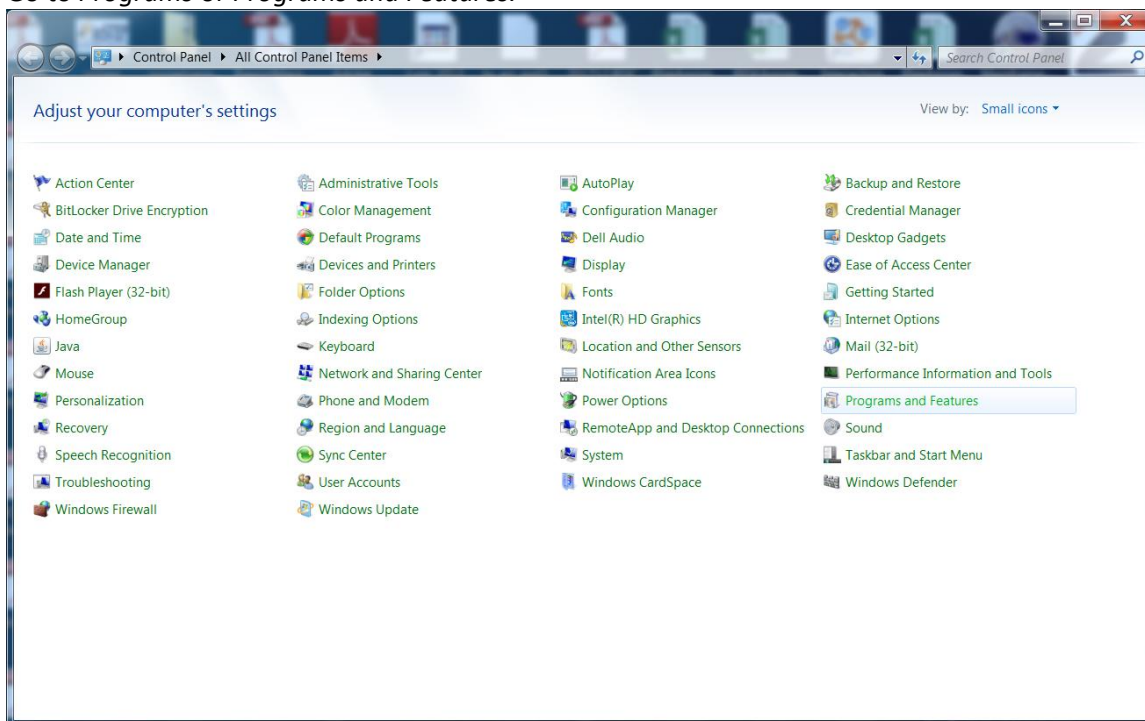

## UNINSTALLING PRIOR RDC APPLICATIONS

1. Go to the *Start* menu and *Control Panel*.

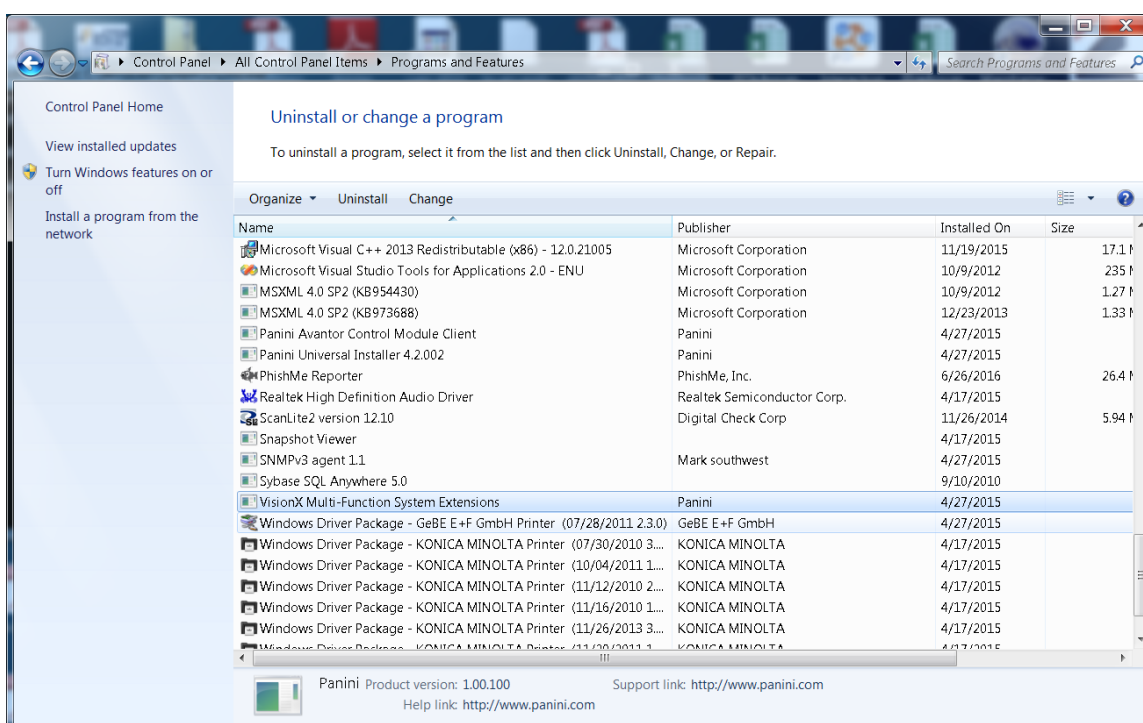

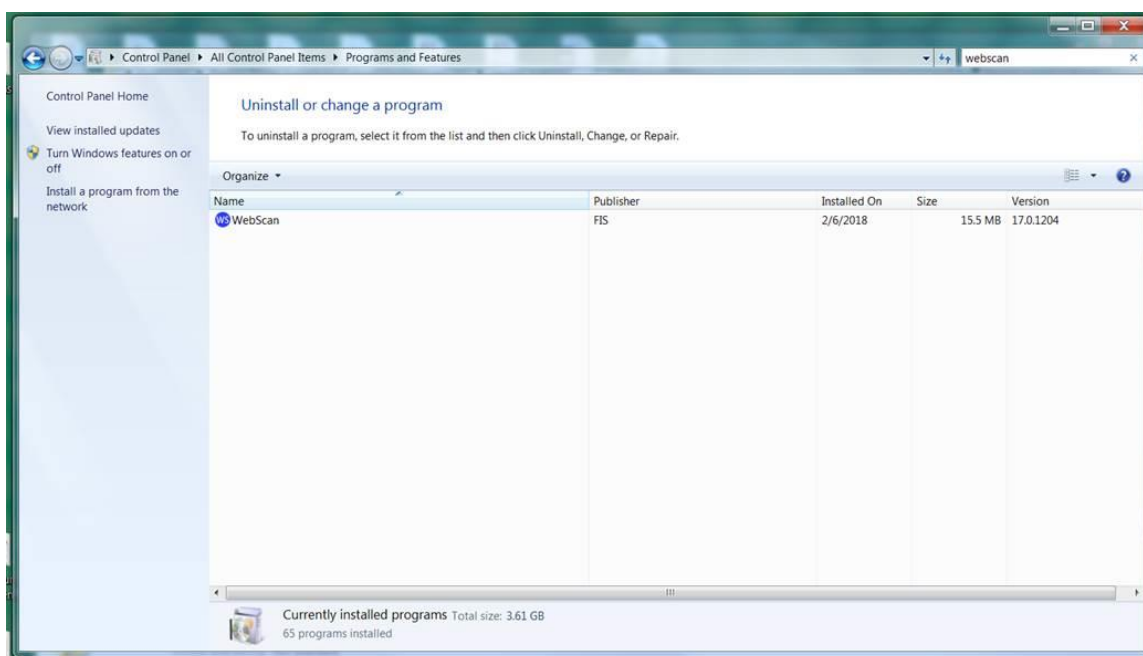

## 2. Go to *Programs or Programs and Features*.

You will need to uninstall\* all programs or drivers related to the scanner that has been used with your previous RDC application. Programs that you will need to uninstall may include:

- Web Scan Program
- Any driver or program related to your scanner

*\* You must have administrative rights in order to complete these steps.*

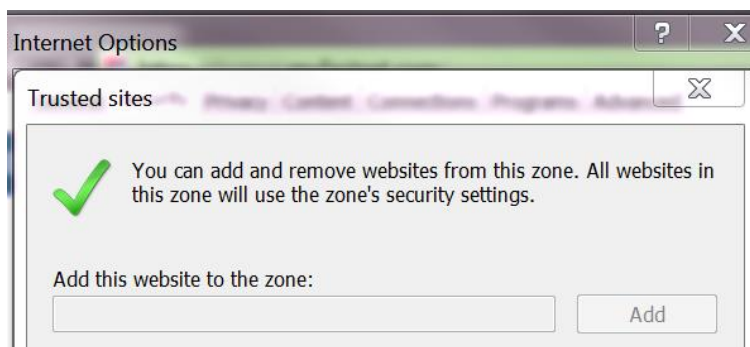

3. Right Click on the driver or program that is to be uninstalled and Select "Uninstall".
4. Follow the prompts given by your computer as you move through the uninstall process.
5. Once the uninstall process is complete, please restart your computer.

## NEW PROGRAMS/DRIVERS INSTALLATION

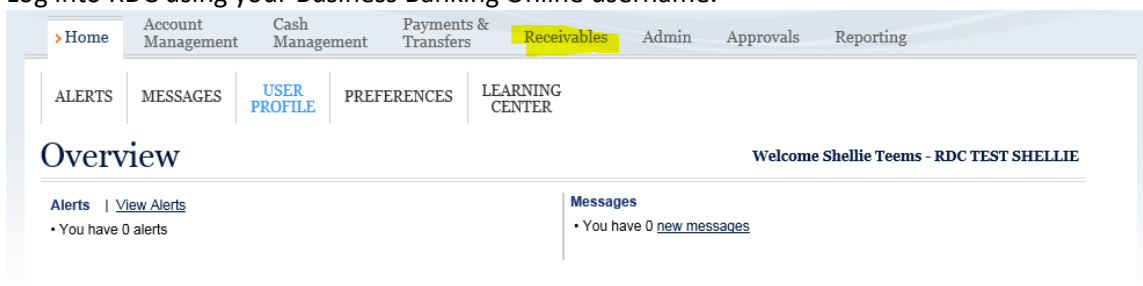

Now you are ready to install the Programs/Drivers that will be needed to use your new Remote Deposit Capture (RDC) solution.

1. Add [https://\\*.firsthorizon.com](https://*.firsthorizon.com) as a trusted site on your computer or network. Reminder: Administrative rights to the computer or network are required for these steps.
  - a. Go to *Internet Options / Security / Trusted sites*. Enter [https://\\*.firsthorizon.com](https://*.firsthorizon.com) and click “Add”.

- b. Note: If the Per Site Privacy Actions” are gray or not able to be modified, the network administrator needs to add the trusted sites at a global level.

2. Log into RDC using your Business Banking Online username.

3. Click on *Receivables*.

4. Click on *Remote Deposit Capture*. From the menu to the left of the RDC screen click on *Installation*.

**Prerequisites** (if not already completed)

- Perform [System Requirements Test](#) on the client PC to ensure it has enough hard drive space and memory available, the proper third party applications are installed, and all other necessary components are verified.
- Read and follow [initial setup steps](#) documentation.

**Scanner Setup**

\*\*\*\*\* Ensure your scanner is **Not** connected to the PC prior to this next step! \*\*\*\*\*

**Step**

1. Choose one of the scanners from the list below and click "Install". Allow installation to finish completely.

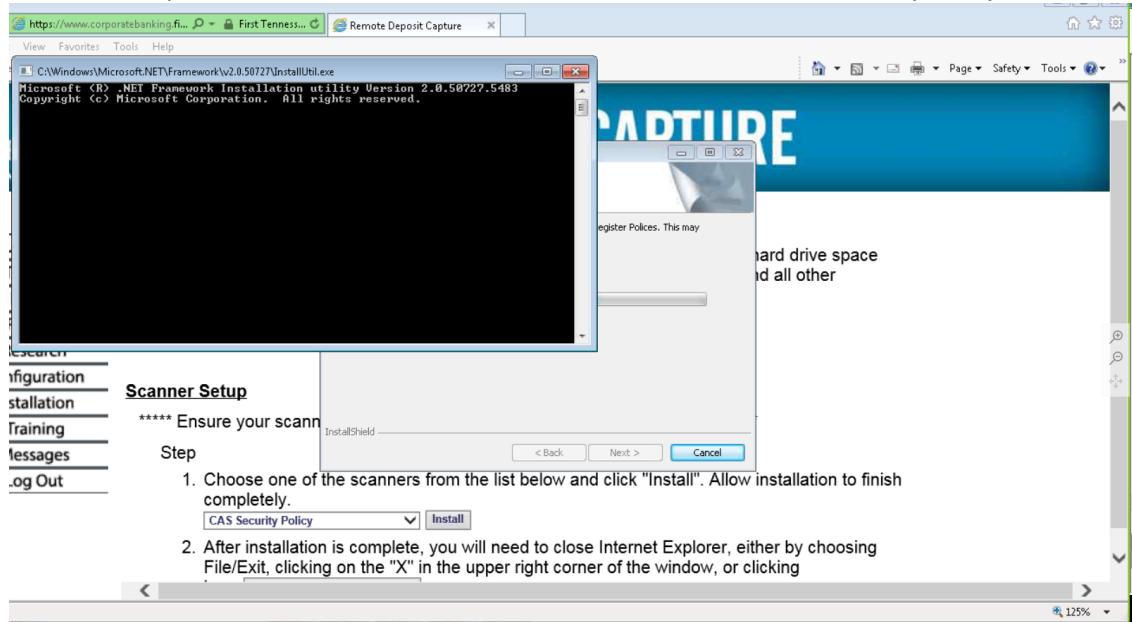

2. you will need to close Internet Explorer, either by choosing in the upper right corner of the window, or clicking here:

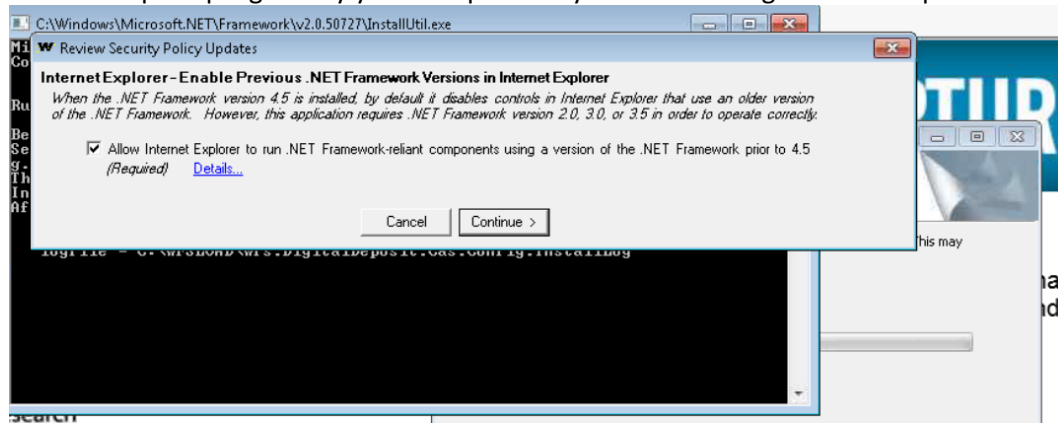

5. Install the CAS Security Policy.

- a. From the drop down menu in the RDC Installation Screen, select *CAS Security Policy* and click *Install*.

- b. Follow the prompts given by your computer as you move through the install process.

6. Install the new programs/drivers for RDC.
- a. From the drop down menu in the RDC Installation Screen Select the driver that matches your check scanner and click *Install*.

## DIGITAL CHECK DRIVER INSTALLATION

1. Select *Digital Check (Windows)*, Click *Install*. Follow the prompts during the installation process, click *Next* when prompted.

- d. Select the Scanner Type that matches the check scanner that is being used.

Un-check the following fields for all scanner types:

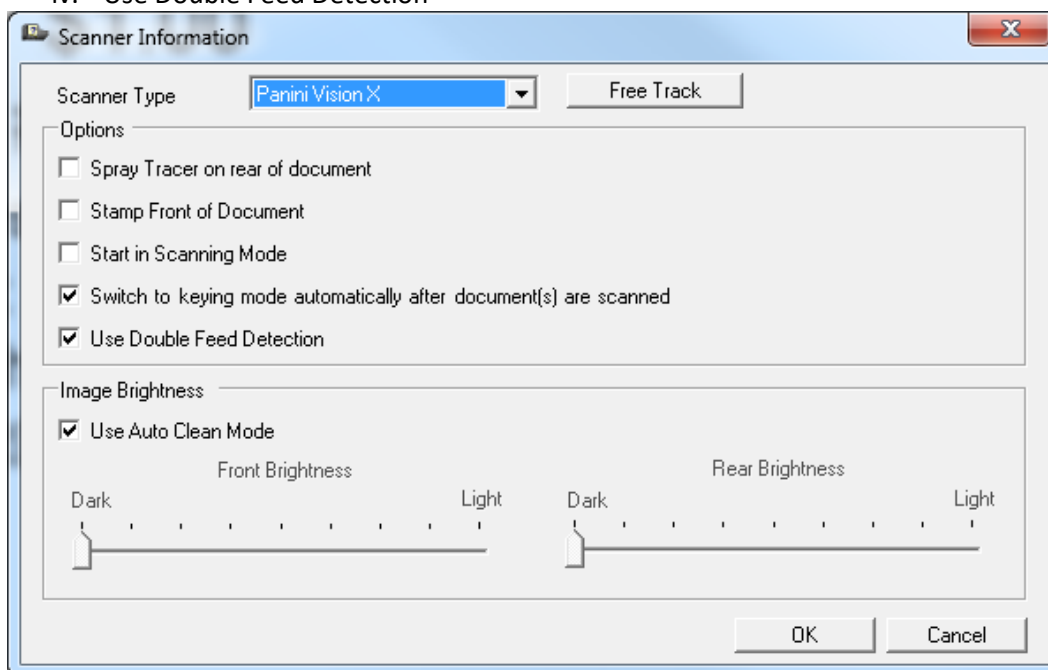

- Spray Tracer on rear of document.
- Stamp Front of Document

For Panini i:Deal or Digital Check CX30 scanners, un-check these additional fields:

- iii. Switch to keying mode automatically after document(s) are scanned
- iv. Use Double Feed Detection

- e. Select the Scanning button at the bottom of the screen. This will prompt the drivers that have been downloaded to complete the installation process.

You are now ready to start using RDC!

Select *Training* from the left side of the RDC screen. This will take you to the Training section of the RDC application. This section provides instructions and demonstrations of the RDC features.
